Introduction

Prof. Jordan B. Peterson, the man that never stops being relevant. This biography presentation was to shed a light over his achievements, his journey and his teachings. He has written 3 books in the span of his career and proposed tons of research papers and guided millions of students. In the field of philosophy, psychology, religion, existentialism, etc.

Career wise, he is a respected emeritus lecturer, author, a podcaster and much more.

This Presentation covers

His basic Introduction i.e. his education and influences.

Timeline - the events in his life over these years, in brief.

Professional Work Life - as a clinical psychologist, an author, and a professor in the University of Toronto.

Books and YouTube presence - the three books he has published and how he has a widespread reach on social media platforms.

His influence in the media.

Awards and Recognition that he has earned.

Learnings

During the research on him, a lot of things that we came across, that he preached were seemingly over the top considering our miniscule knowledge in this field. But every bit of it was worth learning.

As he has been a controversial personality for such a long time, and still is in his prime, it definitely shows his longevity and how hard he sticks to his words. This also displays a strong character.

Being such an accomplished figure, he has his work life split into several threads. This shows his capacity to multi-task. Even at this age, he proves himself to be strong at each front, be it his lectureship, writing books, doing interviews, participating in debates, hosting his podcast, appearing as a guest on other podcasts, and overall being a true gentleman.

He uses his knowledge to spread key lessons to younglings in the form of self-help books or free-for-all lectures, showing his love towards the studies and teaching.

Overall he is an amazing character who is worth idolizing.
